Re: Improving Public Safety Communications in the 800 MHz Band
WT Docket No. 02-55

Dear Ms. Dortch:

On July 2, 2002, Laura L. Smith and Jeremy Denton of the Industrial Telecommunications Association, Inc. (ITA) spoke with D'wana Terry and Scot Stone of the Wireless Telecommunications Bureau, to discuss the above-referenced *NPRM* seeking comments on improving a public safety-CMRS interference problem in the 800 MHz band. At the meeting, ITA elaborated on a possible compromise proposal that is being worked on by the affected parties in the band.

Sincerely,

/s/ Jeremy Denton
